

SENATORS START FOR EUROPE AS CONGRESS QUILTS

Pack Troubles In Old Kit
Bag Until Session In
December.

IMPORTANT BILLS ARE TOSSED ASIDE

Republicans Will Lose One
Sided Majorities In
Next Session.

Washington, March 5.—The troubles of congress were packed in the old kit bag today to be laid away until December as an army of legislators began an exodus from the capital following adjournment of the 67th congress.

Senators, congressmen and their multitudinous assistants were headed for the seashores, the mountains, the farms back home, even Europe—anywhere so long as it took them away from Washington—to enjoy the long congressional vacation in eight years. Before the week ends only a corporal's guard will remain on Capitol hill where congress has been in session almost continuously since December 1920.

Fifteen senators and 126 congressmen were in the outgoing rush with no prospects of returning to congress until their people back home change the verdict rendered at the polls last November. Their offices were being cleared for incoming legislators who won the November verdict.

While the Republicans held one-sided majorities in the congress just ended, their lead will be materially reduced when they meet again in December. In 7th house and senate, progressive groups within the Republican ranks will hold the balance of power.

In the senate there will be 53 Republicans, 42 Democrats and one Independent, while the house will show 225 Republicans, 207 Democrats and three scattered votes.

Will Invade Europe

While the exodus was in progress, two ex-senators and three ex-representatives remained in Washington to assume new public duties allotted them by President Harding. Former Senator Harry S. New, of Indiana, went to work as postmaster general, while former Senator Miles Poindexter, of Washington, was arranging passports for a voyage to South America, as the new ambassador to Peru.

The proposed senatorial invasion of Europe also gathered recruits. With Senator Underwood, Democrat of Alabama, already "over there," Senator Hiram Johnson, Republican of California, closed his desk in preparation for a three-month tour of France, England and Germany. Senator Borah, Republican of Idaho, who will carry his foreign invasion all the way to Russia, also was arranging passports, while Senator Moses, Republican of New Hampshire, was packing his grips for a trip to the Near East and Balkan states. A half dozen other senators expected to be Europe-bound before the end of the month.

With the death of congress, a score of important bills were tossed into the congressional wastebasket. These included the administration ship subsidy bill and the Dyer anti-lynching bill, killed by filibusters, the McNary reclamation bill, the Copper truth-in-fabric bill, the Gooding wheat stabilization bill, the Dial cotton futures act, the Norris measure advancing the date of presidential inaugurations and the convening of congress.

USES CORKSCREW TO KILL HUSBAND

Ohio Man Face Beaten To
Pulp, Eyes Gouged Out
And Nose Broken.

Steubenville, March 5.—A corkscrew wound in the head may cause the death of William Simmons, 32, colored, who was attacked and brutally beaten and mutilated by his wife, Mrs. Valetta Simmons, at their home last night. Simmons is dying in a hospital and Mrs. Simmons is in the county jail here.

Police were called to the Simmons' home and found the husband lying in a pool of blood. His face had been beaten to a pulp with dishes from a nearby table. Both of his eyes were almost gouged out and his nose broken.

A wound in the back of the head was discovered and a bloody corkscrew was found on the floor near him. Police and hospital attendants say the corkscrew was twisted through the man's skull near the base of the brain.

Simmons is alleged to have arrived home in a drunken condition and the assault followed.

SERMON BARES SINS OF SALEM

Rev. Mr. Coffin Gives Evidences Of Sin, Tells What Many
Prominent Citizens Think, And Appeals For Moral
Support To Make Salem a Cleaner City.

An appeal to the manhood and womanhood of Salem to band together to bring about the moral support that shall make Salem a clean city and a decent and God-fearing place to live was made by Rev. M. M. Coffin, pastor of the First Friends church, Sunday evening when he preached on "Salem's Greatest Sin."

"This could be done if the people would forget their petty differences," he continued.

In opening his discourse Rev. Coffin told his audience that in discussing this subject he had no thought of knocking his home town, "for this place is very dear to me," but that it was out of love and the hope to stimulate thought and that somebody might be turned to God.

"I am not going to be so silly as to ignore the fact of sin in Salem. For I have been here long enough to see some of the shame that rests on this favored little spot," he said.

Evidences of Sin
"I have seen the doorways of pool-rooms crowded with young men and heard the foul language from their lips as I passed.

"I have noticed the immodesty and heard the loud, coarse talk of some of the young women and heard girls in their teens take the name of

God in vain. Not girls of foreign born parents, but from 'best homes.' "I have seen evidences of the lack of law enforcement in drunken men reeling on the street, spewing out of mouths, as if they were a sewer, the filth of their sordid souls.

"I have read in the paper of the broken homes, charges of unfaithfulness which have resulted in divorce court. All these are evidences of the fact that there is sin in Salem. Here are the sins of the human family in America but we are dealing with Salem especially."

What Citizens Think

During the last week Rev. Mr. Coffin had been discussing the question of Salem's greatest sin with city officials, business men and prominent citizens and their answers to his question formed the nucleus for his sermon. Here are the replies he received:

"Lack of law enforcement; immorality; liquor question; unbelief; wrong use of one of the greatest inventions—the automobile; lack of civic pride; laxity in home government; immodest dress; improper and trashy literature of the day; a sin of omission; cowardice; a spirit of

The injunction was denied, a reconciliation followed, and the wedding was postponed for a time.

COMMITTEE GIVES REPORT ON COUNTY FARM CONDITIONS

Commissioners Are Told
Competent Overseer
Is Needed.

SUGGESTS CATTLE BE DISINFECTED

Other Improvements Urged
In Report Filed Mon-
day Afternoon.

Some unsatisfactory conditions, with recommendations for improvements, were reported Monday afternoon to county commissioners by the committee appointed by them recently to investigate operations and conditions at the county farm. Some of the high spots of the report, submitted by C. E. Rowland, county agricultural agent, are:

"That the prize dairy herd is polluted, that the dairy barn and cattle be disinfected at once. The milking machine is out of order and disinfection of its use is recommended as its use destroys the efficiency of the herd.

"The manure spreaders and tractors, of which there are three, are out of order with the exception of one Fordson. They must be repaired at once. A large amount of grain is being wasted under the present system of handling.

"Efficient headmen and poultrymen are needed. Under the present system accurate records cannot be kept for registering of fowls.

"Six horses on the farm, four are blind and one is ill of forage poisoning. Committeemen recommend its being shot.

"The hogs are in poor quarters but are thriving well. The poultry house is unventilated and in poor shape. The basement of the poultry house is very wet and sacks of feed are setting in one half inch of water.

"A box of bran is utilized as a dusting box by the chickens.

"Urgent need of a competent overseer is stressed."

The committee reported in detail on the existing conditions at the farm and offered many suggestions.

Thousands Watch "Human Fly" Fall From Hotel Wall

Cry Of Horror Goes Up As
Body Falls From The
Eighth Story.

New York, March 5.—In the presence of thousands of horrified men and women who jammed Broadway and 32nd st at noon today, a "human fly" believed to be the noted Harry P. Young, dashed to his death while trying to climb the wall of the Mar-tinique hotel.

The "human fly" with a smile of confidence, began at the street and worked his way slowly to the eighth floor. Here he stopped, the keen March wind whipping the thin white coat about his body. He seemed to be in trouble for he groped with his feet and his knees were obviously trembling.

The fly looked down but there was no smile on his face. It was as white as his coat. Slowly and with intense effort he began making his way along the wall to the nearest window, gripping the smooth surface of the wall with night and main. He was just approaching this window when he stopped again. His body slid from the wall as his feet clutched feebly for support.

A cry of horror went up from the crowd as the body fell. It struck the pavement with a dull thump and so great was the momentum that it bounced upward about three feet. A surgeon who came up in an ambulance said bones were broken all over the body and that death must have been instantaneous.

Wind-storm Robs Salem Of
Electric Power For
Three Hours.

ROOFS TORN AWAY, TREES BLOWN DOWN

Y. & O. Traffic Interrupted,
Straw Stack Halts
Auto Traffic.

Electric light and transportation service was crippled and considerable property damage caused Sunday by the 60-mile gale that swept the county, according to reports received Monday morning.

Salem homes and business houses were without electric light service for three hours Sunday afternoon due to a break in the main line of current supplying Salem with electricity. A large tree, nearly 30 inches in diameter, was uprooted by the high wind and broke the main line of current between Columbiana and Youngstown.

The emergency line supplying Salem with current also was disabled, being replaced shortly after 4 p. m. The main line was not placed in service until 6:30 p. m. Numerous poles were thrown to the ground by the high wind.

The roof of an abandoned school house, on Garfield ave., just beyond the city limits, was torn off by the gale while a chimney on the rear of the Hendricks candy store on Main st. was blown down and crashed through the roof of the establishment. Many trees were uprooted by the storm.

Several poles bearing trolley wires along the Y. & O. south of Lisbon were blown down and traffic was delayed for nearly three hours before the tangled wires could be replaced.

Traffic Tied Up
Telephone lines between Lisbon, Salem and East Liverpool were out of commission for about two hours due to poles having been broken off by the wind.

A large straw stack was lifted from its base and carried bodily across the road near McCracken's Corners, causing a tie-up for some time until autoists borrowed pitchforks from a nearby farm and cleared a path for their autos.

During the storm the frame kitchen of the Lisbon hotel was blown down but no injuries were reported. Several chimneys in Lisbon were blown down and several people narrowly escaped injury by flying shingles which were torn from the roofs of homes.

For more than two hours the air was filled with leaves, sticks and papers gathered from the streets by the high wind which was reported to have reached a velocity of from 60 to 65 miles an hour.

Damage In Leetonia

Considerable damage was done by the high wind Sunday in Leetonia and vicinity. Perhaps the most serious in the town was the crushing of an automobile by a large bill board which blew over on it. A part of a roof on a garage was blown off and bricks from the chimney fell through, breaking the top of a new automobile.

Windows in the McKeefer iron company office were broken when a roof from a nearby building blew against them.

At the farms of C. G. Wilderson and Leonard Galbreath large barn doors were blown off and at the Early farm trees were uprooted. At the McMillen home in Leetonia a porch swing was demolished when a large branch of a tree was blown off against it.

MIKEVOC CLAIMS HIS LIQUOR FINE TOTALS ONLY \$100

Man Shot By Dry Officers
Denies Mayor's Report
Of \$1,000 Fine.

Jacob Mikevoc, 33, Salem coal miner, arrested at his home last Tuesday night, declares that he was not fined \$1,000 and costs as reported by Mayor Ferren of East Palestine, but that he was fined \$100 and costs, amounting in all to \$116.95.

When Mikevoc was arraigned before Mayor Ferren last Wednesday morning he entered a plea of guilty to both charges against him, and was fined \$500 and costs on each charge, according to Mayor Ferren. He was released on his own recognizance to appear on March 15 and pay the fine, according to the East Palestine court.

Mikevoc however, denies this, "I was fined \$116.95 by Mayor Ferren and was told that if I was caught a second time the fine would be \$1,000," he declared in a statement Saturday.

When asked about the case Monday morning Mayor Ferren declared Mikevoc was fined \$1,000 and costs, and that the man was to return on March 15 to pay it. When told about Mikevoc's statement Mayor Ferren replied that Mikevoc was to pay \$116.95 and that he appeared on March 15 and that he "supposed he would pay the rest."

Mikevoc was the man arrested by East Palestine agents on Feb. 3 at the home of Sam Vogelhuber, Railroad st. He was shot in the leg while attempting to escape.

Declares Foes Of Saloon Must Find Social Substitute

Cincinnati, March 5.—Enforcement of prohibition laws has lagged and will continue to lag until dry law advocates find a substitute for the saloon as a social entity, according to the Rev. John Haynes Holmes of New York, who spoke from the pulpit of the Peoples church here last night.

Even while foes of the saloon found numerous reasons for criticizing it, the clergyman said they had offered nothing to take the place of its legitimate social function.

His remarks were part of a sermon on abolition of war, in which he supported the program outlined in congress by Sen. Wm. E. Borah of Idaho.

CANDIDATES MAY OPPOSE FERREN

East Palestine, March 5.—As attention here turns to politics, interest centers in the coming mayoralty fight. It is not known whether Mayor Albert W. Ferren, who has won both friends and enemies by his drastic liquor fines, will be a candidate. However, his silence is taken to mean, unless unforeseen discouragement arises, he will run to succeed himself.

Because of the mayor's silence as to his intentions, other possibilities are withholding their avowed candidacies, and while several men are being talked of for the post, it is not known whether any would enter the race as an active opponent of Mayor Ferren.

Among those mentioned in the mayoralty discussions are E. L. Lyons, Jacob Ashman, O. L. Butts and C. F. Woods. The election primaries take place in August.

Better Service Needed

COMPARED with other states Ohio has been notoriously slow during the past years in completing and announcing the unofficial returns of her elections. If the election race is at all close it requires three or four days to get the returns in and determine the result. This is caused by lack of businesslike attention on the part of some of the election officials. There are many precinct and county boards that take their time.

Ohio newspapers have agreed on certain amendments to the laws that would help speed up the work and permit the results to be known here as quickly as in other states. The bill provides that precinct and county boards must begin the work at once when the election hours are over and continue until the work is completed. It aims to give the public the information without unreasonable delay.

There is room for improvement, as has been shown at each election time for many years. The final figures on the constitutional amendments 10 years ago were delayed six days while a secretary of a county board neglected his work to attend a fair. Last fall one county board adjourned to attend a circus. Other county boards gather the returns, lock them up and go to sleep. The rest of the state waits.

The changes proposed in the law will put in the hands of the secretary of state, the chief election officer, the power to dismiss from office men on precinct or county boards who will not use businesslike methods in completing the work. That power is needed. Without it the best the secretary can do is to advise. Armed with power of dismissal, he can oust the dilatory and sleepy official and get men willing to complete the work. The bill promises better service for the public in a place where better service is needed.

Mother Tongue

THE supreme court of Nebraska has upheld a law of that state prohibiting the teaching of any language except English in schools below the ninth grade. That is well. The law is not only sound in law but sound in reason. This is an English-speaking nation. Moreover, English is rapidly becoming the language of the world, so far as commerce and international communication are concerned. The time is not far distant when all nations will make English a part of the course of instruction for their young people in order better to fit them for their life occupation.

It is entirely proper for the young people of America to study foreign languages but most of them have all they can do to get a fairly good command of English during the eight years they spend in the common schools. In fact, both the spoken and written language of many of our high school students indicate that some of them did not achieve a very notable success in their study of English in the elementary school. Those who wish to study foreign languages after they have mastered English, may well be encouraged to do so, but their first attention should be given to that language in which we have written our history, in which we transact our official business and in which we conduct our ordinary conversation and communication.

The man who insists upon teaching his children some language other than English during the common school period is open to serious doubt on the score of his Americanism.

OUR READERS

Salem's Greatest Sin

Editor The News:

"Salem's Greatest Sin" is the topic for discussion at one of the local churches on Sunday evening. As a natural result we are all interested and so may all want to venture a suggestion and with it the logical solution.

We approach a doctor and he will tell us it is the drinking water and will launch forth on a discourse on how many different and deadly species of bacilli or whatever they are are contained in a cubic inch of the same.

We next ask the citizens committee and they will say its the "hooh" and give us statistics on the number of violators, makers, provokers and consumers in our fair city.

Very likely approaching the hooh-ligger he will assure us the curse of Salem is the prohibition officer who never sleeps and whose nose is always open for a scent of the iniquitous still.

Another citizen, will tell us the school board is grinding our nose in the earth and will ruin the city financially thus putting the stigma of shame on that board.

And so on each and every individual or organization or clan has its own opinion of the greatest fault in the town.

The average citizen who will permit his memory to drift back some several years will recall with no pride whatever that Salem has had nearly a continuous performance of "leading citizens" divided on issues during that time.

This is not a disparaging view to "knock" but is referred to as an incentive to "boost" with those various "leading questions" burning the hearts of our otherwise impartial and fair-minded citizens they (the questions) assumed proportions which

even today will start the smoldering embers into flame.

So as "Salem's Greatest Sin," let me suggest that the best and surest remedy would be for the lion and the lamb to get together and plan and work for the best interest of the city as a whole. This remedy contains one element that should be clearly impressed on every party concerned. That is that the other party is just as much entitled to his own opinion as the party of the first part. And if a man should chance to differ with another, is no indication that either is right for maybe both are in the wrong.

So with this suggestion and its remedy in mind would not our city be more cheerful and a better place in which to live if this plan were

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of lung-sick people have found that they can save two-thirds of the money usually spent for cough preparations, by using the well-known old recipe for making cough syrup at home. It is simple and cheap and it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2 1/2 ounces of Pinex from any druggist, pour it into a pint bottle and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat, lungs, bronchi and trachea, and gradually but surely the annoying throat tickle, the dreaded cough disappears entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membrane.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Farmers Order 48 Cars Or Fertilizer

G. J. Wilkinson, of Salem, purchasing agent who is engaged in listing orders for fertilizer for farm bureau members, states that he had orders for 48 cars and that he fully expected that this would mount above the 50-car mark when the books were closed.

This is the largest single order that has been sent in by the farm bureau in this county and shows conclusively that the farmers in this county have firmly adopted the co-operative buying method.

Last year, the order was not quite half what has been listed so far and indications are that it will not be long until every farm bureau member in the county will adopt this method of buying his supply of fertilizer.

The cars will be routed to East Liverpool, Lisbon, Salem and other parts of the county near where the buyers are located and they will be notified on their arrival so that unloading will proceed without delay.

REV. COFFIN BARES CITY'S SINS, ASKS FOR CO-OPERATION

(Continued from first page.)

Let George do it and a desire to "pass the buck."

Indifference of citizens to best interests of the city; social evil; love of money; insincerity and lack of co-operation; neglect; disregard of God; a spirit that is willing to receive the benefits of a Christian community and an unwillingness to contribute to its uplift.

Lack of regard for the best moral interests of the community and also a disregard for law and its enforcement; vice, largely caused by the immodest dress of women; the dance and unwholesome influence of movies upon the young people; the alarming immorality among the younger generation; a spirit of self-satisfaction and complacency.

Failure of citizens to turn out and support proper candidates at the polls on election day; lack of interest in stamping out the evils of our city, just sitting back and letting the city drift on.

Out of this list of answers Rev. Mr. Coffin discussed self-satisfaction and complacency, law enforcement, love of money and impurity and the social evil.

Self-Satisfied Community

"Salem is a self-contented and self-satisfied community. The indifference to the gospel is alarming. Estimating Salem's population at 11,000 with a church membership of not more than 3,000 where in the name of heaven are the 7,000? Is it not an evidence of indifference? The people are sleeping away the days and hours of their opportunity to find God."

"Salem is to be commended for its group of citizens with the city's best interests at heart, who have given of their time and money in an effort to make this a better, cleaner and safer place to live. These men did it at the risk of their own lives."

"There seems to have been a new lease on life at the city hall during the last few weeks and increased activity along these lines."

"The love of money is the root of all evil, First Timothy 6:10. Money is the root of no evil. The love of money—inordinate affection that leads a man to sacrifice his honesty, honor, self respect, time, his happiness, his home, his good conscience, ease of mind and his soul—that is the root of the money evil."

Love of Money Responsible

"They say the love of money is responsible for Salem's sin. Men engage in the bootlegging business because of the money in it. It has been whispered, though not to my knowledge successfully proven, that some questionable places have been given protection for money. On the other hand I heard a citizen who when asked for use of his automobile in one of the raids said: 'I am with you boys, but I am in business you know, and I cannot afford to let you have it.'"

"The trashy literature published, the immoral picture shows, the gambling, selling of 'dope,' cigarettes and vice all point to the love of money. This country is money mad."

"The sin of impurity is the curse of the race. History proves it is the downfall of nations. The life blood of the nation is honeycombed with disease. One druggist told me that two per cent of our young men are suffering from an unmentionable disease. One doctor put it at five per cent. The impurity among the young men and women is alarming."

"I heard of one girl who cried when her mother made her wear her stockings rolled. Personally I feel the blame for immodest dress can be traced to the mother and the home, when mothers bow at the altar of fashion."

The Greatest Sin

"What is Salem's greatest sin? These are only outbreaks of the malady; they lead to a diagnosis."

"Salem's greatest sin is in breaking of the greatest commandment. 'Thou shalt love the Lord thy God with all thy heart, all thy soul and with all thy mind and a second is

DRINK WATER WHEN KIDNEYS HURT YOU

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and boggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.

Baritone Assists In Revival Service

J. WILLIAM FILSON

Large audiences were in attendance Sunday morning and evening at the revival services at the Methodist church and there was an encouraging response on the part of the people at the altar in the afternoon at each meeting. The large chorus choir sang very acceptably under the leadership of J. William Filson.

Monday night Mr. Filson will sing "Dearest and Nearest Each Day" by Charles H. Gabriel and the choir will sing, "I Am a Stranger Here." Rev. H. H. Scott will preach on the topic "Ambassadors Sent of God." Circle 6 of the women's organization will attend in a body. The Sunday school is invited to attend in a body.

Like unto it, Thou shalt love thy neighbor as thyself.

"Salem has forgotten God. And if you are here unsaved tonight Salem's sin is your sin and your sin is Salem's sin. I would point you to the Lamb of God. 'This is a faithful saying and worthy of all acceptance that Christ Jesus came into the world to save sinners.'"

Rev. Mr. Coffin announced that next Sunday evening he would speak on "The Grip—Its Cause and Cure."

FLAMES DESTROY TEN-ROOM HOUSE IN SALINEVILLE

Fire completely gutted the ten-room house and restaurant, the Mary Simpson in Main st., Salineville, Sunday afternoon. The exact cause of the blaze is not known.

The blaze was discovered about 2 p. m. by William McGilivray. The volunteer fire department responded to the alarm, to find the building a mass of flames. It was at first feared that the fire would communicate with adjacent buildings, which are separated by only a foot of space. At one time, residents of the entire block in which the fire occurred believed that the flames, fanned by a high wind, would destroy many homes.

Valiant work by the firemen saved all adjoining property. It was some time before the flames were placed under control, and not until the building in which the fire started was reduced to a mass of debris.

The building was occupied by a confectionery store and restaurant conducted by Mrs. Mary Simpson, and her daughter, Miss Mary Simpson. Miss Hilda Collins conducted a dress-making establishment on the second floor.

The ancient armor displayed in the Metropolitan museum in New York forms one of the greatest collections of its kind in the world.

For Swollen Joints The Best of it is

Most remedies fail but Joint-Ease succeeds.
It's for joint troubles only, whether in ankle, knee, hip, elbow, shoulder, finger or spine—whether rheumatic or not.

It limbers up stiff, inflamed, painful creaky joints so quickly you'll be astonished.
Two seconds' rubbing and away it goes through skin and flesh right down to the bone and ligaments—that's why it succeeds. Ask the J. H. Jesse Drug Co., or any reliable drug list.

\$52 to \$78
a year**

You will be amazed to see how the use of "Bull" Durham will cut down the cost of your smoking.

How is it possible to give you quality at the low cost of 10 cents for 50 cigarettes?

Here's one reason: The government tax alone on 50 machine-made cigarettes is 15 cents—**5 CENTS MORE THAN THE COST OF 50 "BULL" DURHAM CIGARETTES TO YOU!**

The average smoker saves \$1 to \$1.50 a week by "rolling his own" from "Bull"—or from \$52 to \$78 a year. This makes quite a Christmas fund—or pays for a fine trip.

HERRICK DULY REAPPOINTED

Records Reveal He Is the Legal Highway Department Head.

TAFT TAX BILL RECOMMENDED

Opponents Would Have It Reprinted With the Various Amendments Made by the House—Harding Court Proposal Indorsed by the Senate. Avalanche of Measures Before Ohio Legislature.

Columbus, March 5.—No irregularities have been found in the reappointment of Leon C. Herrick as director of the state highway department.

A closer examination of the records of appointment in the governor's office revealed that Herrick is the legal highway department head.

Announcement from the governor's office Tuesday that there were no proper records of appointment and that "changes" had been made in the record book, were based on a secondary appointment book and not on the general record ledger, kept by William S. Bundy, executive clerk, in whose handwriting, as of Tuesday, June 27, 1922, appears the entry of the reappointment of Herrick.

The "change" in the other book, which is the governor's appointment book, was made by a stenographer who, instead of making a second entry for the reappointment, simply erased the date of the expiration of his second term. The confirmation of Herrick by the senate, which was also overlooked in Tuesday's announcement, was also found duly registered July 3, 1922, when the other cabinet members of Governor Davis were confirmed. Director Herrick will therefore not be called in by Governor Donahue to show cause why he could continue to hold office.

Governor Donahue vetoed the measure fostered by Representative Ramey of Toledo. It provided that notaries public commissions should be valid in all counties of the state, if filed with the county clerks in the counties in which the notaries wish to operate. Under the Ramey bill, Donahue said in his veto message, "we would have the spectacle of a horde of notaries, especially in every gas and oil field, whose only offices are on four automobile wheels. They would be hard to find—especially if the state wishes to prosecute or an aggrieved citizen desires to sue."

Opponents of the proposed old age pension law, granting pensions to qualified Ohioans whose income is less than \$350 a year, will be heard by the house committee on state and economic betterment next Tuesday. No opposition to the bill developed at a hearing Tuesday night when was indorsed by Father John O'Grady, Washington, D. C., who made investigations for the Ohio old age pension committee; G. W. Savage, Ohio Mine Workers, and M. O. Burns, Hamilton, O. Eagles.

A legislative committee investigation of the condition of all ex-soldiers in Ohio institutions is asked in a resolution introduced by Representative Paul Herbert of Columbus.

A resolution commending President Harding for asking that the United States enter the league of nations, international court of justice was passed without opposition by the senate. It was sponsored by Senator J. F. Burke and reads:

"Whereas, President Harding has shown his courage and statesmanship by recommending that the United States be represented on the international court of justice, which is a continuance in permanent form of the old Hague tribunal; and

"Whereas, President Harding is entitled to great consideration because of the deliberation he has displayed on such step; therefore,

"Be it resolved, by the senate of the state of Ohio, That this body, on behalf of the people of the state of Ohio, hereby extend to President Harding its commendation for the courage and wisdom he has shown and its best wishes for the favorable consummation of his statesman-like proposal."

The house by a vote of 71 to 50 referred the Taft taxation bill to committee. Opponents of the measure wanted it reprinted with the various amendments. It will be a week, it is believed, before the bill again comes before the house.

The Taft measure fixes a limitation of 17 mills for cities and villages and a 14-mill limitation outside municipalities; puts future sinking fund and interest charges on bonded indebtedness outside all limitations, keeping inside those charges already within the limitations and leaving outside those already outside; provides for an elective, three-member budget commission in the county, to supervise expenditures; and would limit bond issues outside the limitations by requiring approval of 60 per cent of the voters.

"The higher limitation should be allowed cities because they have all the levies assessed outside and, in addition, the municipal levy," Taft said.

discussing the limitations. Furthermore, city taxpayers get much more for their money than do those in the country, in police and fire protection, paved streets and the like, and it is therefore fair the city limitation should be higher."

Effect of the limitations, Taft said, would be to decrease the present available tax in rural districts approximately .85 of a mill and would increase it in cities approximately 2 mills. "Total taxes in cities, however, will be somewhat reduced because of abolishment of the state levies," he added. "I feel confident that this bill, with its limitation and budget provisions, is a step toward a limitation of expenditures."

Taking out the limitations, he said, would cause taxes to rise from 5 to 19 mills thereafter.

The first amendment considered was presented by Taft, raising from 1 to 2 per cent the limitation on county bonds issued in anticipation of township taxes. This amendment was adopted unanimously, as was a second amendment, providing salary of \$10 a day for members of the budget commission when in session.

An amendment by Representative Brown, making available for highway building, one-third instead of one-fourth of the bonds which can be issued without vote of the people, was adopted.

Another amendment adopted was by Representative Robison. It provides that, in the event of a reappraisal of property in a county, the 17 and 14-mill limitations should be calculated on a basis of comparison between the original and reappraisal total valuations.

A total of 621 bills have been introduced in the house and 278 in the senate. Included in the total is the avalanche of measures that overwhelmed the assembly Monday night, the last day that new bills could be introduced. The new measures cover a wide variety of subjects. Democratic members in both houses joined in the rush and introduced a score of bills proposing legislation in accord with recommendations made by Governor Donahue in his two messages to the legislature. Introduction of all of them was prompted by the determination to make the legislature shoulder the responsibility for failure to enact into law the legislation Donahue stood for in his campaign. It was said.

Among the last minute measures was the annual state constabulary bill. Representative Harding, sponsor for the constabulary bill defeated two years ago, introduced the same measure again and will attempt to secure its enactment this session.

Representative Freeman is behind a bill to appropriate \$1,200,000 a year from the general revenue fund to provide money for state educational institution building purposes. This bill is designed to take the place of the Fouts' 125-mill levy of two years ago, which automatically expires this year. Ohio State University would get 72 per cent of the money appropriated, Ohio University 14 per cent and Miami 14 per cent.

Many measures defining the rights and privileges of women are before the solons.

Some of these bills are backed by the National Woman's Party which wants every right enjoyed by man shared with the other sex and every burden endured by him a part of woman's hardships. Others are backed by the Ohio League of Women Voters, a non-partisan organization, which seeks political equality and education. Still other proposed measures have the backing of certain societies and organizations.

Senator Garver, sponsors a measure providing the voting residence of a married woman shall be determined on the same basis as that of the unmarried woman.

Representative Fouts introduced a bill supported by both the League of Women Voters and the National Woman's Party, providing for equal guardianship rights between mother and father.

Two other bills affecting female citizens were thrown into the house. One would raise the legal age on woman from 18 years to 21 years and the other would require girls up to 18 years of age to get their parents' consent before marriage. This is the age for men at present.

Senator Clark introduced a bill to provide for equal salaries and treatment of school teachers, regardless of sex. A similar bill by Senator Light, would assure equal pay and consideration for all employees in public works, notwithstanding their sex.

The workmen's compensation act amending bill, agreed upon by a committee representing both employers and employees, was introduced in each house. Senator Kumbler, sponsored it in the senate and Representative Reiman in the house. The same legislators sponsored joint resolutions providing for a constitutional amendment to abolish the "open liability" clause of the workmen's compensation act and proposing instead of permitting suits to be brought against employers that the industrial commission be empowered to make additional awards.

Appropriation of \$35,000 for operation of state bonus department is carried in a bill by Representative Harding, Warren county. The fund for administrative expenses is exhausted and the sinking fund commissioners ask the appropriation. Attorney General Crabbe gave the bill to Harding.

Skin Ablaze with Eczema Constant Itching Almost Unbearable

We know there is one thing that stops eczema, and that is more red blood cells. S. S. S. builds them by the millions! You can increase your red blood cells to the point where it is practically impossible for eczema to exist. We know that as

blood cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? They sands just like you have never thought about it! Skin eruptions, eczema with all its fiery, skin-digesting torture and its soul-tearing, unrelenting itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood cells begins to roll in! Blood cells are the fighting glories of nature! S. S. S. builds them by the millions! It has been doing it since 1823! S. S. S. is one of the greatest blood cell builders, blood cleansers and body builders known to us mortals! When you put these facts together, then to continue to have eczema and skin eruptions looks more like a sin than a disease. Mrs. Arthur N. Smith, Pearl St., Newark, Ohio, writes:

"My little girl had a very bad case of eczema. She began taking S. S. S. and in well now. I thank you very much. I tell my friends what a good medicine it is. I cannot talk too much about it, for I know it is O. K."

Here is your opportunity. S. S. S. contains only vegetable medicinal ingredients. Because S. S. S. does build red blood cells, it cures rheumatism, builds firm flesh, fills out hollow cheeks, beautifies the complexion, builds you up when you are run down. S. S. S. is sold at all drug stores, in two sizes. The larger size bottle is the more economical.

Auto Tags Require 400 Tons Of Steel

Columbus, March 5.—A contract for 400 tons of sheet steel to be used by the state penitentiary in the manufacture of the 1924 auto license tags has been awarded by State Purchasing Agent Brennan to the Youngstown Sheet & Tube Co. The price was about \$40,000. It will make 500,000 tags.

The same day the contract was awarded, a bill introduced by Sen. Gardner of Hamilton county proposed that the state make a permanent license tag.

Piqua.—The latest counterfeiting scheme is to refinish an old automobile license to pass for a new one. One man recently arrested had refinished his old license plate and by scratching out the "2" replaced it with the "3" for 1923.

ANGLERS LICENSE BILL IS UNSIGNED

Columbus, March 5.—Gov. Donahey signed two bills passed by the legislature. One of them by Sen. McCoy, Republican, of Mahoning county, theft of automobiles punishable by sentences of from one to 20 years in the penitentiary and the other, by Rep. Walther, of Cuyahoga county, provides for the joint construction of streets or roads on the boundary lines of two municipalities.

The Anglers' license bill, passed by both houses, also is in the hands of the governor, but he has not announced whether he will approve or veto it.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother, you must say "California." Refuse any imitation.

Had Nothing Like That. One of those affluent persons who can afford to go to Scotland for a little look around brings back the following story:

"I was being shown the sights of Edinburgh. At each, apparently wonderful to the Scotchman who was acting as my guide, I guess I scoffed. Finally, as the sun was going down, he took me to the brow of a hill and pointed to three smokestacks, belching forth smoke.

"That's nothing compared to what we have in Pittsburgh, or Gary, in my own state, or any number of cities in the United States, Douglas," I said.

"Ah, my friend," he said, "those are the smokestacks of three breweries!"

TUNNEL KILN TYPE POTTER YPLANNED FOR NEWELL, W. VA.

Homer Laughlin China Co. Will Build \$700,000 Plant This Year

East Liverpool, March 5.—At a cost of approximately \$700,000, a new tunnel kiln type general ware pottery will be erected this spring by the Homer Laughlin China Co. at Newell, W. Va., the output to equal the capacity of the No. 5 plant of this company which has nine bisque and seven glost kilns.

The increased production will give this firm the output of 94 kilns, giving it the largest production of any general ware pottery in the world.

Concerning its plans, the company issued the following official statement:

"The Homer Laughlin China Co. announces its intention to build a new plant at Newell for the manufacture of semi-vitreous ware, construction to be begun at the earliest practical date.

"For some time they have been looking into the merits of the various types of continuous, or tunnel, kilns, and the new plant will be equipped with such kilns, the Harpor direct-fired type having been contracted for. The plant will have one bisque kiln, approximately 330 feet long, and one glost kiln, approximately 300 feet long and also a continuous decorating kiln, and will have a capacity about the same as the No. 5 plant of the same company at Newell, which has 16 periodic kilns, and will give employment to several hundred people.

"The plant will be constructed on the site of the old golf course, on the west side of Laurel hollow and overlooking the river, and work on the railroad siding to the site will be begun immediately.

"The buildings will be of one story construction and will be approximately 800 feet long and 220 feet wide, with a basement under that part of the plant fronting towards the Ohio river and extending the full length of the plant.

"It is hoped that the new plant will be completed and ready for operation some time next fall."

MANAGERS FANCIES TURNS TO THOUGHTS OF PENNANTS NOW

New York, March 5.—The fact that in the spring a manager's fancy lightly turns to thoughts of pennants is indicated by a pot-pourri of pre-season statements issued today by various leaders of major league outfits. Most of them fairly bristle with optimism; although the general tendency is to concede the Giants and Yankees an excellent chance to repeat in their respective leagues.

The most bellicose of the American League leaders is Ty Cobb, who not only doubts the Yankees ability to repeat but declares that he would not be surprised to see part of the next world's series played in Detroit.

Following are the opinions expressed for International News Service: JOHN J. MCGRAW, manager of the New York Giants.

"I think the National League situation in general is in fine shape as all of the clubs, with the exception of our's, have most of their players signed. We expect to have another great race in the National League this season. I feel that I have a fine ball club and that we again will be in the fight to the end."

MILLER HUGGINS, New York Yankees:

"While I realize that predicting the outcome of a pennant race is very uncertain business, I don't mind saying that I believe the Yanks will repeat again this year. I think Detroit has been strengthened considerably and will be a factor. St. Louis also figures to be a factor."

TY COBB, manager of the Detroit Tigers:

"I do not want to predict that we will win the pennant, yet it would not surprise me if we did. We are starting out with better prospects than has been the case for many years. But for a lot of bad luck we would have finished second last year. I think we can beat both New York and St. Louis this season and I look for no trouble from the other teams."

FRANK CHANCE, Red Sox:

"The American League race looks like a mighty close struggle to me. The Yanks will be naturally the club the others will have to beat, having the edge that goes with being champions. But the Browns ran them so closely last year, that the least slip by Huggins' team will change the race."

PAT MORAN, Cincinnati Reds:

"I feel that our club is one that will give a good account of itself and while I never want my players or myself to talk about the pennants, we will be out there trying from the time the bell rings."

CLARK GRIFFITH, Washington Senators:

"I look for our team to have one of the most successful seasons in its history. We have eight or ten of the best young players in the country and these men, coupled with the veteran strength, have inclined me to be more enthusiastic than I ever have been at this time."

FRED MITCHELL, Boston Braves:

"Any team that can beat the New York Giants will win the National League pennant. McGraw has a real ball club and if it were not for a little uncertainty about his pitchers, the race would look like a runaway. But Cincinnati came very strong at the finish last year and the Giants pitchers are veterans and therefore likely to close in effectiveness, so it would be foolish to predict any absolute result."

BRANCH RICKEY, manager of the St. Louis Cardinals:

"I believe the 1923 pennant race will be more open than some people think. The Giants, apparently, have an edge but the seven other clubs have been greatly strengthened. The addition of Myers and Toney makes me feel that the Cardinals will be in the hunt from the start."

LEE FOHL, St. Louis Browns:

"I am not in the habit of picking my club to win a pennant. It looks like a mighty close race to me with the Browns giving the other fellows all they can handle."

BARNEY DREYFUS, Pittsburgh Pirates:

"I feel certain that the Pirates will finish first or second in the 1923 National League pennant race, barring accidents. We have a very promising team. It looks like a winner to me."

BILL KILLIPER, Chicago Cubs:

"I predict the Cubs will be the sur-

prise of the National League race this year. We finished fifth last season. We will do better in 1923."

TRIS SPEAKER, manager of the Cleveland Indians:

"Anybody who tries to pick a winner this season in the American League is foolish. Any one of a half dozen clubs has a chance to finish first. It looks like the most open race in years. We'll be trying but so will all the rest of them."

WILLIAM KID; GLEASON, manager of the Chicago White Sox:

"We expect third baseman Willis Kamm, the so-called '100,000 beauty' to strengthen the White Sox materially. Barring accidents we look for the Sox to give a good account of themselves this season."

FAMOUS MEN WIN JUNIOR CONTEST

The Famous Men, a recently organized basketball team, took their first step toward the city junior championship Saturday when they defeated the Salem Cubs, former title holders, by a score of 59-53.

The Cubs led at the end of the first half by a score of 29-20. The Famous Men came back strong during the second period and overcame the big lead set up by the Cubs. The second period ended with the score tied at 53-53. In the extra period the Famous club scored six points and clinched Schiller, Schaffer and Forney were the victors.

The mainstays for the winners while Borton with 11 field goals was the star for the Cubs.

The lineup: FAMOUS MEN—59. CUBS—53. Forney.....F..... Bishop Schaffer.....F..... M. Sartick Schiller.....C..... P. Sartick Ferguson.....G..... Corso Fisher.....G..... Borton

3 County Teams Reach Finals In State Tourney

Columbiana, East Liverpool And Wellsville Cagers Are Winners.

Columbiana county will be well represented at Ohio State university next Saturday when the finals for the state scholastic basketball championship will be played.

East Liverpool, Wellsville and Columbiana will defend their laurels in the championship play Saturday as a result of having captured honors in their respective divisions Friday and Saturday.

Displaying what critics termed the most sensational brand of basketball ever witnessed at Zanesville, East Liverpool swept right through to victory after getting away to a poor start. Losing to Marietta the Pottery City lads came right back and after trouncing New Philadelphia and Zanesville, administered the same medicine to Marietta.

Wellsville, playing at Cambridge, won the right to represent the Class B schools of the southern district of the state by winning four games in a row. Wellsville won from Shadyside, Dover, Muskingum and Mingo Junction.

Columbiana, playing at Akron, came through with flying colors and by trimming Leavittsburg and Hubbard won the right to pair with Struthers in the finals Saturday. Struthers was the team that eliminated East Palestine after playing three extra periods.

Donald DeBolt, star forward of the East Liverpool team, was the star of the Zanesville tourney. He was high individual scorer with 50 points. He was given great praise by Zanesville critics for his ability.

FORMER SALEM GIRL

(Continued from first page.)

against the sale and use of intoxicating liquor. None of these men, to whom we have entrusted the care of our government, has realized that the issue is of importance, not only to this, but to the next day and generation. Such is the depth of our public men!

"To be brief, primarily it will be the coming citizens who will derive most benefit from prohibition, for, not knowing of its presence, it will not be a needed stimulant. That which is unknown is unmissed. Let us leave the question as it is now for the coming generation to decide. Can a nation which has for years imbibed liquor make a fair decision? In every evolution or revolution some one suffers. Cannot the people of today endure a little self-denial for the sake of what it means to the future?"

"Of late much has been said of the law of heredity, of its influence and its effect for good and evil. To pass on to posterity the weak bodies and unsound minds that must result from the use of liquor is a retrogression of an apparently civilized nation, which, realizing the way to do good, chooses rather to do harm. To stop the traffic of intoxicants and enforce the law is to progress one step nearer to that Utopia which is the ideal of every American."

"If we can but maintain and enforce our prohibition the future citizens will be capable citizens, able to face the world with sturdy hands and steady nerves, clear vision unclouded by false stimulants to clarify them, and souls devoted to other and

higher things than intoxicants. If we leave our country in the hands of citizens free from the taint of drink we may rest assured that the problems which greet them will be met and overcome with greater efficiency than characterize the actions of many of our officials of today."

"Matters are reaching a crisis. Indications lead one to suspect that the politicians—they are not diplomats—will try to bring the prohibition question to a referendum in an effort to repeal the 18th amendment. Will you satisfy these men who have not squarely laid matters before you, will you vote for what is in reality their interests? Or do

you not realize that the fate of your children; the future of your country depends on your decision. "It depends on whether you love your children or your wine cups better."

What's Behind Your Light Bill?

Perhaps all you see on that slip of paper is a lot of figures, a discount date, something about so many kilowatt hours and the address of our general office.

What you don't see behind your light bill is the vast array of men, money and material constantly required to give you light when you push a button.

Think of the buildings, the fortunes invested in machinery, the army of men from skilled engineers to office staff! Think of the hundreds of miles of wire, every inch of which must be kept in service.

Isn't it remarkable that the small sum of money indicated in your bill has placed all these factors to work for you!
